Annual Report

OF THE

SELECTMEN

AND OTHER

TOWN OFFICERS

OF

Newport, New Hampshire

For the Year Ending February 15, 1909

THE REPUBLICAN CHAMPION JOB PRINT
NEWPORT, NEW HAMPSHIRE
1909

NEW HAMPSHIRE
STATE LIBRARY

TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the inhabitants of the town of Newport qualified to vote in town affairs :

You are hereby notified to meet at the Town Hall, in said town of Newport, on the second Tuesday of March next at nine o'clock in the forenoon, to act upon the following subjects, namely :

Article 1. To choose three Selectmen, Town Clerk and Town Treasurer for the year ensuing.

Art. 2. To choose a Collector of Taxes and all other necessary town officers, agents and committees for the year ensuing.

Art. 3. To hear the reports of the Selectmen, Town Treasurer, Auditors, Agents and Committees heretofore chosen, and pass any vote relating thereto

Art. 4. To raise and appropriate such sums of money as may be necessary for the payment of the town debt and defraying the interest thereon for the year ensuing, and pass any vote relating thereto.

Art. 5. To raise and appropriate such sums of money as may be necessary for the payment of town charges, for the maintenance of the poor, for cemeteries, parks, commons and water works, and to improve the same, and pass any vote relating thereto.

Art. 6. To raise and appropriate such sums of money as may be necessary for the support of schools for the year ensuing.

Art. 7. To see if the town will vote to ask for state aid for the purpose of making permanent improvements on the highways, raise and appropriate the necessary amount of money therefor, and pass any vote relating thereto.

Art. 8. To raise and appropriate such sums of money as may be necessary for the laying out of highways and building and repairing the same, and for building and repairing bridges, and pass any vote relating thereto.

Art. 9. To see what sums of money the town will vote to appropriate or raise and appropriate for the purpose of repairing and building sidewalks in Newport village and repairing the concrete on Main street near the bridge, and pass any vote relating thereto.

Art. 10. To see what action the town will take in relation to improving the park on North Main street, in Newport village, appropriate money therefor, and pass any vote relating thereto.

Art. 11. To see if the town will vote to appropriate the sum of one hundred dollars to defray the expenses of Memorial day exercises and pay the same to the quartermaster of Fred. Smyth Post, No. 10, Department of New Hampshire, G. A. R., and pass any vote relating thereto.

Art. 12. To see what sums of money the town will vote to raise and appropriate for the purpose of lighting the streets in Newport village and elsewhere about town, for the installing of new lights in town and the maintenance of the same, and pass any vote relating thereto.

Art. 13. To see if the town will vote to appropriate the sum of three hundred and fifty dollars for the support of the Newport Cadet Band, to be paid at the discretion of the Selectmen to E. A. Davis, treasurer of the band, providing the band give a series of open air concerts during the summer months, and pass any vote relating thereto.

Art. 14. To see if the town will authorize the purchase of eight hundred feet of hose for the use of the Fire Department, appropriate money for the same, and pass any vote relating thereto.

Art. 15. To see if the town will vote to have a police officer who shall devote his entire time to the duties of his office, and appropriate money therefor.

Art. 16. To see what action the town will take to provide for any floating debt or notes owed by the town now due, and pass any vote relating thereto.

Art. 17. To see what sums of money the town will authorize the Selectmen and Treasurer to borrow in anticipation of taxes, and pass any vote relating thereto.

Art. 18. To see if the town will authorize any discount, and if so how much, on taxes paid before certain dates, and pass any vote relating thereto.

Art. 19. To see if the town will vote to instruct the Board of Water Commissioners to extend the water main from Winter street to the new house of Angie Gunnison, on Beech street extension, appropriate money for the same, and pass any vote relating thereto.

Art. 20. To see if the town will instruct the Board of Water Commissioners to lay pipes and convey the town water into St. Patrick's cemetery from Beech street extension, appropriate money for the same, and pass any vote relating thereto.

Art. 21. To see if the town will vote to instruct the Board of Water Commissioners to extend the Newport Water Works to Polard's Mills, appropriate money therefor, and pass any vote relating thereto.

Art. 22. To see if the town will vote to put in underground pipes to properly drain the surface water from the south end of Laurel street extension, appropriate money for the same, and pass any vote relating thereto.

Art. 23. To see if the town will vote to authorize the Selectmen to abate the taxes assessed the past year upon that portion of real estate of the late William H. Wright as was bequeathed by him for the establishment of the Carrie F. Wright Hospital, to exempt said property from future taxation, and grant it the use of the city water without charge, and pass any vote relating thereto.

Art. 24. To see if the town will vote to release the money conditionally accepted from the Newport Agricultural Society for the purpose of erecting a pavilion in Wilmarth Park and allow the same to be presented to the Carrie F. Hospital in Newport.

Art. 25. To see if the town will elect three Cemetery Commissioners, one for one year, one for two years, and one for three years, and one each year hereafter, define their duties and powers, and adopt any or all of the recommendations of the Cemetery Committee heretofore chosen, and raise and appropriate such sums of money as may be necessary for carrying such recommendations into effect, and pass any vote relating thereto.

Art. 26. To see if the town will vote to adopt Chapter 33 of the Session Laws of 1901, entitled "An act providing for the appointment of public weighers and defining their powers and duties."

Art. 27. To see if the town will vote to authorize the removal of certain pine trees from the southwestern part of the cemetery at North Newport, and pass any vote relating thereto.

Art. 28. To transact any other business that may legally come before said meeting.

Given under our hands and seals at Newport on this twentieth day of February, A. D. 1909.

HIGHWAYS AND BRIDGES

R. E. Bartlett, Road Agent,	\$8,893 13
-----------------------------	------------

The following bills were due before March 10, 1908:

Bascom & Hutchinson, labor on bridge,	\$ 2 50
A. V. Wright, snow roller,	16 00
Ford & Kimball, 8 trust castings,	9 94
E. F. Reed, snow roller,	12 00
“ scraper,	4 00

and an average cut of two and one-half feet for just about 450 feet, and an average fill of two and one-half feet for 350 feet, two 12-inch tile and one stone culvert cross the road on the large hill and one 12-inch tile culvert crosses the Newbury road at this point, and an underground drain of 10-inch tile 226 feet long laid in front of the mill property.

The small rise opposite Mr. Dorr's residence was graded and the hollow below filled and two culverts lengthened.

The hill opposite the schoolhouse was graded and the road surfaced from the mill to a point opposite the Lily pond, a distance of 3,850 feet, with material taken from the hill. The road over the hill was straightened as far as practicable and made good width. The above distances are from an actual survey made when the water was put in for Guild, and it may be of interest to know that the distance from D. Richards & Sons' mill to the Granite State Mills is 10,600 feet, or 40 feet over two miles, and the distance from that point to town line is 3,033 feet, or 184 rods.

The present standing of the joint fund is shown by the following table:

Town contribution to fund,	\$2,440 50	
State " "	610 00	
	<hr/>	
Total joint fund,		\$3,050 50
Town disbursements approved,	\$2,943 30	
State " survey and supervision,	55 46	
	<hr/>	
Total expended,	\$2,998 76	
Unexpended in town treasury,	\$41 39	
" state "	10 35	
	<hr/>	
Total unexpended,	\$51 74	
	<hr/>	
		\$3,050 50

The following is the itemized account:

HIGHWAYS AND BRIDGES

To the Selectmen of Newport:

In making the first report under the present method of caring for the highways, a brief word of explanation may not be impertinent.

The roads came out last spring in bad condition, with several miles practically ruined. Although the roads are far below what we might wish yet they are comfortable to ride upon, all over town. I regret to say that the expenditures have exceeded the appropriation for highways, as you will see by the itemized report. A too liberal expenditure early in the season, followed by unexpected calls for outlay, will account for this. The cost of bridges has been unusually large. Four small plank bridges have been covered with stone

Early in the season three pieces of gravel road were put in as an experiment, the gravel in each place proving excellent. The list of the cost is approximate, but very near correct. A different method of book-keeping by the Road Agent, would enable him to give the exact cost of different items of work. For the job near Mr. Stubbs, \$150; near Croydon line, \$115.25; at North Newport, \$77.20. The retaining walls and culvert at North Newport cost \$104 50.

As will be seen by the report, George A. Wilmarth has had direct supervision of much of the work during the year. His long experience makes his services valuable. It has been the plan as far as practicable to widen the roads. The large automobile travel will make this imperative in the future.

When settlement was made with the Selectmen, by accident \$100 expended, was left out of the account. The bills have been paid by money advanced by the Road Agent, as noted in financial statement.

I trust that the following report is sufficiently itemized to meet the requirements of the law.

RECEIPTS

Received from Selectmen, orders on Town Treasurer,	\$7,393 13	
Balance advanced by Road Agent,	100 00	
	<hr/>	\$7,493 13

Respectfully submitted,

R. E. BARTLETT, Road Agent.

MACADAM PLACED ON NORTH MAIN STREET

Received from the Selectmen, orders on Town Treasurer, the amount of appropriation for the work,	\$1,500 00
Paid David Perry & Son, for shaping roadway and putting in place 750 tons trap rock broken stone at \$2 00 a ton, as per contract,	\$1,500 00

The grading and lowering water pipe as per contract was to be done by the town, and as much of the material moved, helped to

improve other streets, the grading was charged up to general high-ways bill. The amount so charged was approximately \$178.

Mr. Perry commenced to lay down the macadam at the place where he stopped work the previous year, near the residence of C. M. Emerson, and worked north as far as the appropriation would allow. This left a portion of the street between where the appropriation ended and the macadam laid down in 1906, unimproved. Mr. Perry, it seems, consulted an influential citizen, who as Mr. Perry says, told him to finish the street, and that he would see him paid, and before the Road Agent was aware of the fact, the stone was here and partly unloaded, to complete the street at this place. While the officials do not feel responsible for having more macadam put in than was planned for, yet will say that the work was honestly done at the contract price, which was reasonable, and made the conditions much more satisfactory than they would otherwise have been, and they ask that Mr. Perry's bill, unpaid, of \$534 for 267 tons of stone in place, be approved by the voters at the next annual meeting.

R. E. BARTLETT, Road Agent.

AUDITORS' REPORT

We the undersigned, Auditors of the Town of Newport, hereby certify that we have this day completed an examination of the foregoing account of the Board Selectmen for the fiscal year ending Feb. 15, 1909, finding orders drawn in excess of receipts amounting to \$2,508 04 and find the same correctly cast and properly vouched. We find \$6000 has been borrowed in anticipation of taxes and paid during the current year, also notes issued to the amount of \$20,000 for additional pipe line for Water Works System; also there have been issued for refunding outstanding notes due, \$14,500.

We have destroyed in the presence of the Selectmen, by burning, coupons due prior to Feb. 15, 1909, as follows: 82 at \$1 50, \$123; 127 at \$10, \$1270; 315 at \$2, \$630; 245 at \$7.50, \$1,837.50; 399 at \$1.50, 598 50.

We also find the following notes issued prior to Feb. 15, 1907, have been paid. No. 122, \$100; No. 124, \$100; No. 130, \$1800; No. 131, \$1,000; No. 135, \$1,500. Also balance due on No. 136, \$400; No. 139, \$400. Also extension of water to Guild, note No. 146, \$1,000.

FRANK A. ROGERS,	

REPORT OF BOARD OF HEALTH

The exceptional sanitary condition of the town does not furnish material for an extensive report in this department.

There have been only a few sporadic cases of preventable diseases. The physicians in attendance have so conducted them that there have been no secondary cases. The disinfecting of houses required by the statutes has been done promptly and as thoroughly as possible, with perfect results thus far.

Faithfully submitted,

J. LEAVITT CAIN	} Board of Health.
HERBERT A. WILLEY,	

REPORT OF CEMETERY COMMITTEE

To the Citizens of Newport :

Your committee on the new cemetery, continued at the last annual meeting, for the purpose of expending the unused balance of about \$700 from the appropriation of \$2,000 made at the March meeting in 1907, desire to report that after visiting by sub-committees other cemeteries and conferring with the superintendents thereof and others, they engaged Ira S. Littlefield of New London, N. H., as engineer, and under his supervision had a survey made of the lot on the road to Guild heretofore purchased, and the easterly part (about one-half) enclosed by a substantial fence.

This part has been laid out in sections or lawns, with convenient avenues to make them all accessible, and provide the needful entrances and exits, and with due regard to the improvement later of the westerly end of the purchase. It is the judgment of your committee that not only should all improvements for the present be confined to the easterly part of the lot, but that this should be improved a section at a time. The grading has already been completed on one section, and is well under way on two more, which will give ample selections for the present for family lots and individual interments. One section has already been plotted into lots, one interment made therein, and a handsome monument erected; enough of the avenues have been cut out and partially graveled and graded to make accessible all three sections on which improvements have been made.

The town water pipe running to Guild has been tapped, and a service pipe carried to a convenient point, from which extensions and laterals may from time to time be run as required.

A piece of land abutting the highway leading to Ryder Corner and accessible from the north side of the cemetery, has been purchased from Frank H. Reed, and will provide loam or surfacing material for a long time to come.

The above improvements and purchases have over run the funds at our disposal somewhat, the total cost to date being \$820.48, for which amount we have received from the Selectmen orders on the Town Treasurer. (For details of expenditures, see statement attached.)

Some further improvements in way of seeding, grading, graveling and markers, will be necessary the coming year. Our plans also contemplate a drain to take the surface water which is liable to accumulate at one point when the ground is frozen. The avenues have been laid out with this in view, so that one, or possibly two grates, in one of them, will accomplish this. A tool house will be needed in the near future, and in our opinion it would be wise to build the same the coming season.

To carry out these and such other improvements as we believe will have to be made the coming season, we would recommend an appropriation of \$1,000.

We further recommend that this burial lot be named "Pine Grove Cemetery."

Our plan also contemplates a lawn grade, without terracing, fencing or curbing, for family or individual lots, and we would strongly recommend that this be invariably adhered to.

We have given considerable time to investigation and study of the situation with the view of suggesting for your consideration some plan for the future improvement and care of this cemetery, as well as other cemeteries in town, and some plan under which the lots shall be taken up by citizens and others.

We would recommend that the town elect three persons, to be known as Cemetery Commissioners; one to serve one year, one two years, and one three years, hereafter electing one each year. These Commissioners to have entire charge of all cemeteries in town, with authority to make such rules and regulations governing the same as in their judgment may seem best; they to act in an advisory capacity, with a nominal salary, with power to appoint one or more Superintendents to have immediate charge of the improvements and care of the various lots, as well as interments. Said Superintendents to be appointed annually and to hold office subject to the pleasure of, and their compensation to be fixed by, the Commissioners. The Superintendents to expend under the direction of the Commissioners the income of any and all funds that may be left by individuals for the care of burial lots.

We would further recommend that so far as possible the bequests of individuals for the care of lots be so made that the income thereof may be used first to keep in repair the lot and appurtenances

of the donor; second, the surplus if any, which shall accumulate from time to time, to be available for the ornamentation and improvement of the grounds of the cemetery. This would in many cases make available funds not required at times in connection with the care of the lot of the donor, for surrounding or other lots not otherwise provided for, thereby resulting in the general keeping up of the cemetery.

We would further recommend that all grading and preparation of lots be done by the Superintendent or under his supervision, and that the family and individual lots in each section when completed and ready for occupancy be appraised by the Commissioners and sold on the basis of such appraisal; one-half the proceeds of such sale to be turned over to the Town Treasurer to be used for adding to, improving and ornamenting the cemetery grounds, and to be expended as the Commissioners may direct. The other half to constitute a permanent fund to be invested by the Selectmen and Town Treasurer in securities of the town if practicable; otherwise in other good securities, the income of which shall be paid over to the Commissioners to be expended in the care, protection and ornamentation of the cemetery from which the fund originated.

We would call especial attention to the desirability of having the records of interments properly and permanently kept from the start

REPORT OF WATER COMMISSIONERS

To the Citizens of the Town of Newport :

The Board of Water Commissioners for the town of Newport respectfully submit the following report for the fiscal year ending Feb. 15, 1909 :

The total amount of orders drawn by the Selectmen for construction, maintenance and repairs of the water system to Feb. 15, 1908,	\$111,092 69
---	--------------

Deduct amount of cash received for materials sold and from service and miscellaneous accounts to Feb. 15, 1908,	\$10,788 27
Also for maintenance and repairs,	11,952 82
	\$22,741 09

Net cost of system to Feb 15, 1908,	\$88,351 60
Amount of orders drawn by the Selectmen during the year ending Feb. 15, 1909,	\$24,214 24
	\$112,565 84

Deduct cash returned to the Selectmen by D. J. Mooney, Treasurer,	\$ 13 51
Deduct amount of cash received from service pipe and miscellaneous accounts,	526 42
Also for maintenance and repairs for the year ending Feb. 15, 1909,	2,431 13
Also cost of reconstructing and extending the North Newport system,	449 61
	\$3,420 67

Net cost of system to Feb, 15, 1909, including the new 8-inch supply line from Gilman pond to the junction of the Pine street line and that leading to the distributing reservoir,	\$109,145 17
--	--------------

CASH RECEIPTS

From George E. Lewis and others, for water rents,	\$6,459 45	
From Frank A. Rogers and others, for house connections on main system,	486 57	
From " at North Newport,	54 54	
From miscellaneous account,	39 85	
Total cash receipts,		\$7,040 41
Cash paid Selectmen,		\$7,040 41

EXPENDITURES

The Board of Selectmen have paid the following bills on water works account.

United States Cast Iron Pipe and Foundry Co ,	\$10,818 59

" 1909,	6,469 45	
		<hr/> \$63,988 55
Increase in water rents over previous year,		238 17

CORRECTION OF ERROR

Through an oversight there was an error in the Water Commissioners' Report for the year ending Feb. 15, 1908, which was discovered too late for correction.

In that report it is stated that the net income to the town amounted to	\$2,847 46
From that amount there should have been deducted (service pipe and miscellaneous receipts),	877 61
Leaving net income to the town for the year ending Feb. 15, 1908,	\$1,969 85

SUMMARY STATEMENT

Receipts from water rents,	\$6,459 45
Interest on \$50,000 00 4 per cent. water bonds,	\$2,000 00
" \$20,000 00 3 " " "	600 00
" \$12,600 00 3 " notes,	378 00
" \$20,000 00 3½ " " "	
6 months,	350 00
Interest on \$6,545 00 3½ per cent. notes,	229 07
	<hr/>
	\$3,557 07
Total cost of maintenance and repairs for year ending Feb. 15, 1909,	2,431 13
	<hr/>
	\$5,988 20
Net income to the town	471 25
Interest charges for the past year exceed those shown in the previous report to the amount of	\$719 47
Repairs of gate-house at the pond cost	837 18
Expense incurred cleaning shore of Gilman pond was	202 50

These amounts, also unusually large expenses for maintenance occasioned by the construction of the new pipe line, repairs on the gate house and low water in the pond, reduce the net income from the water rents as compared with the previous year.

The foregoing figures show the cash receipts to have been sufficient to pay interest charges on the entire cost of the system and all expenses for maintenance and repairs for the year, and leave a balance in favor of the town of four hundred and seventy-one dollars and twenty-five cents (\$471.25), while the town gets the water it uses for hydrant service, flushing of sewers, school buildings, library and library house, town hall, engine house, watering troughs, new cemetery, Maple Street cemetery and street sprinkling free.

RECAPITULATION

Net cost of system Feb. 15, 1908,	\$88,351 60	
Construction of 8-inch pipe line to pond,	20,274 70	
Repairs on gate house at pond,	\$ 837 18	
Cleaning shore of pond,	202 50	
Other repairs and maintenance,	1,391 45	
	<u>2,431 13</u>	
Service pipe extension and construction,	1,058 80

Brampton Woolen Co.'s factory.

Maple street cemetery.

Street sprinkling.

Flushing sewers.

Hydrants owned by the town,

69

Hydrants owned by private parties,

7

In accordance with a vote of the town an additional 8-inch supply line of pipe has been laid from Gilman pond, connecting with the 12-inch waste pipe at the dam and with the 6-inch Pine street line and the 6-inch reservoir line, near the Spooner place, so called. From the dam to a point where it enters the highway, near the northeasterly corner of Mrs. Maria H. Bartlett's field, it follows the old 6-inch line on the west side, with an intervening space of from 2 to 6 feet. From the point where it enters the highway it is laid on the west side and outside of the worked part of the road as far as the Booth place, so called, near the Unity town line. From that point to the town line it is located outside the shoulder of the road, and continues on the west side to the Dame hill. At four points on the line, connections are made between the two pipes so that any section may be shut off for repairs without stopping the flow of water to the reservoir. Burlington cast iron pipe was used in its construction.

The cost of the new line, including pipe and lead to the value of \$200, left-over, also \$319.70 due to L. A. Taylor, to whom the contract for pipe laying was awarded, was \$20,594 40.

The gate house at the pond has been repaired by surrounding the stone work with a wall of reinforced concrete from 11-2 to 21-2 feet in thickness, in which 65 barrels of cement, 88 loads of gravel and 610 pounds of steel were used at an expense of \$837 18. This work was done in accordance with plans by L. A. Taylor and largely under his supervision by his workmen.

As a necessary prelude to this work 3 feet of water was drawn from the pond. This, combined with the unprecedented drougth of the summer and fall, reduced the depth of water to a lower point than at any other time since the water works were constructed. Advantage was taken of this condition and \$202.50 was expended in cleaning the shore of the pond of dead trees, bushes, roots and other debris.

NORTH NEWPORT SYSTEM

To avoid freezing it has been found necessary to put a part of the pipe laid in 1905 deeper, and 900 feet has been relaid below the frost line. In order to furnish sufficient water for the houses connected 697 feet of of 11-4-inch galvanized pipe has been laid, connecting

the second spring of water with the first, also 20 feet of Akron pipe. The entire expense, less cash received from service pipe receipts, has been added to the cost of that system.

Net cost Feb. 15, 1908,	\$728 67
Relaying 900 feet of pipe and laying 697 feet connecting two springs and expense of putting in service pipe,	449 61
	<hr/>
	\$1,178 28
Deducting cash received from Draper Company,	54 54
	<hr/>
Net cost,	\$1,123 74

YEARLY WATER RENTS

To July, 1906,	\$18 25
“ 1907,	23 00
“ 1908,	23 00

For good and sufficient reasons a portion of the 1908 water rents remains unpaid so that the income cannot now be stated.

Two double-tenement houses have been connected with this system since the last annual report.

Respectfully submitted,

JOHN B. COOPER,	} Board of
D. J. MOONEY,	
JOHN McCRILLIS,	
	Water
	Commissioners.

REPORT OF SEWER COMMISSIONERS

To the Citizens of the Town of Newport:

SCHOOL WARRANT

To the inhabitants of the school district in the town of Newport qualified to vote in district affairs:

You are hereby notified to meet at the town hall in said town of Newport on Saturday, the 13th day of March next at 1 00 o'clock in the afternoon to act upon the following subjects:

Article 1 To choose a Moderator for the year ensuing.

Art. 2. To choose a Clerk for the year ensuing.

Art. 3. To choose a member of the School Board for the ensuing three years.

Art. 4. To choose a School Treasurer for the year ensuing.

Art. 5. To choose Agents, Auditors and Committees in relation to any subjects embraced in this warrant.

Art. 6. To hear the reports of the School Board, Treasurer, Agents, Auditors, Officers and Committees heretofore chosen or appointed, and pass any vote relating thereto.

Art. 7. To see if the district will vote to authorize the erecting of a fire escape at the rear of the upper floor of the Central school building (so called) raise and appropriate money for the same and pass any vote relating thereto

Art. 8. To see what sums of money the district will vote to raise and appropriate for buliding and repairing school houses and out buildings as the needs of the district may require, and provide suitable furniture and apparatus and needful conveniences therefor and pay for the insurance of the property of the district from loss by fire and for the support of schools, and pass any vote relating thereto.

Art. 9. To transact any other business that may legally come before said meeting.

Given under our hands at Newport this 26th day of February, A. D., 1909.

R. E. BARTLETT,	} School Board	
GEORGE E. LEWIS,		of
GEORGE A. FAIRBANKS,		Newport.

SCHOOL REPORT

To the Honorable School Board of Newport:

The percentage of attendance in all the schools in the town continues to increase. The statistical table for last year, i. e. from September, 1907, does not show the gain in that respect that has been made since the opening of the fall term of this year. The lowest per cent. in any school not including the kindergarten was eighty-four and the highest nearly ninety-eight. The average of all the schools in the village was a trifle in excess of ninety-four. Should the same conditions continue throughout the year, the percentage of attendance will exceed any record of the schools of which I am possessed. In this connection I may say that so closely does the ninth grade articulate with the high school that every member of that grade entered the high school last fall and is one of the six schools in the state where all the pupils in the highest grade below the high school entered a secondary institution. This is certainly a gratifying result for the time is near when the great mass of American children will receive the benefit of a secondary education and a large percentage will pass through college as well.

Our courses are now so arranged as to prepare scholars for college and the technical schools by one of three ways. The strictly classical course, the Latin course with modern languages, or the English course with modern languages and sciences.

Unless pupils come to us from the outside, there will be none to take Greek after the graduation of the class of 1909. Should this condition come to be a fact, it will allow the teacher of Greek one period per day to give her time to one of the modern languages or Latin, thereby enabling us to present a bifurcated course at the end of two years work in the high school to such pupils that may have taken two years of Latin but desire also to take one year's work in physics and one in chemistry. The only change in the other courses being the placing of physics and chemistry in the third and fourth years respectively. Such an arrangement has the advantage of giving to the pupils the necessary requirements for some technical school which at the commencement of their course they had no idea of entering. One of our largest technical schools in the United States does not require Latin

but expressly states in their catalogue that they desire pupils who have had two years training in that subject. The above outline would be distinctly advantageous and unless a sufficient number form a class, at least three, elect Greek, I believe it would be best in the interest of the majority not to offer it after the close of the present school year.

Last June members of both the then senior and junior classes took examinations prepared by the College Entrance Examination Board. The seniors passed conditionally and might have entered but for financial reasons. The juniors took only the preliminary examinations and passed nine points out of the twenty-one at that time required. They did not offer English or any of the subjects scheduled for the senior year. It will be an easy matter for them this year to get the required points without condition. The total number examined by this same board in different parts of the United States and Europe was 3,250. By taking this examination we placed our schools on the same foundation and found our relative standing with schools in 174 places in the United States, 5 in Europe, 11 in Hawaii, 3 in France, 3 in Germany and 3 in Switzerland.

The suggestion was made in one of the committee reports at the annual meeting of the Public Education Association, held in New York, January 15, 1909, that high school education should avoid looking backward at college entrance examinations, but should be concerned with serving the interests of the community. The suggestion is a good one but should not be followed to the extent of abandoning preparation for the college and the technical school. For the high schools to abandon this idea and prepare only for the practical and everyday work would mean that only the genius or the wealthy would ever reach the professions and higher walks of life.

The best thing that a democracy can do is to take care of her children, and if preparation for college is left to preparatory schools alone, then we must trust to them to do for the majority what they have never done or what any outside organization founded on either race or caste cannot do. During the fall term the whole number of different pupils registered in the kindergarten was 15, with the average daily attendance of 10.6. Judging from the number who were in attendance during the two previous winter terms, no more than five or six could be counted on for regular attendance during this time. The cost for teachers alone would have been \$11.50 per week, an amount greatly in excess of the cost of maintaining any other school. For that reason the kindergarten was discontinued for the present. In this connection it seems appropriate to say that last year the largest number of pupils registered in the high school was 59. This year it is 73. Of this number, 16 come from out of town and their tuition is paid by their respective towns. The state law allows a maximum tuition of

\$40 per year per pupil. Our tuition is \$18 per year. It would seem to me that for the advantages offered we ought to ask somewhat more, perhaps \$30 per year, especially so, as the academies and high schools nearest us charge the full amount.

The development of our system to conform with cities and towns of our population and wealth should be in the high school, and the necessary preliminary training in the grades. Five of our secondary schools have regularly approved curricula in one or more of the branches; mechanic arts, agriculture and the domestic arts. These are at Berlin, Concord and Lebanon high schools, Gilmanton and Coe's academies. Manual training and drawing in different forms, are also part of the course in many other schools.

Before adopting any extensive change in our plan, with the exception of introducing drawing, we had better wait for the results from those schools where such courses are in operation, in order to justify conclusions, before asking financial support for those measures which have been in force only long enough to give an encouraging promise.

In theory at least our school games are the culmination of periods of training in which many take part. The interest in the final result is what makes the useful part, the daily training, go on. The very heart and life of sport, is friendly rivalry; it is relaxation, a diversion, a relief from cares, bitterness and hostility. The foundation of all sports is in friendliness and its essence in good fellowship. These are the standards for measuring all sports. It is no sport, if in its nature it evokes evil temper, arouses bad feeling and does injury. There is nothing substantial in a victory won by methods which alienate friends or lose his respect. The rewards of sport are found in the test of skillful performance, in the pleasure one has the right to take in exercising trained muscles, in doing a thing well, in bodily refreshment and invigoration, in the diversions and variety afforded the mind, in the knowledge of self control, both physical and mental, in the excitement of competition and in the companionship of friends. The desire for skill justifies practice and training.

Bodily invigoration demands open air for the best sports. By maintaining the standard of scholarship and the spirit of fair play, a type of scholarly athlete will be produced who will "deliver the goods" by fair means only. Newport's geographical location, its varied and successful industries, the enterprise of its citizens, means that Newport will unquestionably increase in population and in wealth. Before it is too late and too expensive, some arrangement should be made for a playground and erect thereon a gymnasium where the young people of the town may have training under instruction and proper supervision. A gymnasium so arranged that a part of the space

may be given over in the future to industrial education.

Not all of life is for labor alone. We need a reasonable amount of recreation and most of us deserve it, therefore an expenditure of the town's money in that direction would be neither unexampled, unwarranted nor unwise. "To him that gives, receives," and whoever gives pleasure, gets it.

There are always some changes in the teaching force, and we have not escaped them. The most important was the withdrawal of Mr. Hayward, for seven years principal of the high school. A scholarly, upright man, who worked in season and out to maintain a school of high reputation. We look for a repetition of his success in his new field of work. His successor, Mr. H. C. Stoughton, has taken up the work with courage and good judgment, and we were fortunate in securing his services.

The work of your superintendent with the committee, teachers, pupils and parents has been in all personal relations extremely pleasant.

Respectfully submitted,

F. S. SUTCLIFFE, Superintendent.
